DETAILED ACTION

1. Newly submitted claims 1, 32, 33, 35-37, 39-42, and 44-54 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the newly amended claims are related as process of making the product claims that have been undergoing prosecution and examination. In addition, instant method claims are patentably distinct from the previously examined composition claims. Applicants have attempted to change the entire scope of the invention by amending all claims from the previously examined composition claims to process of making claims. Moreover, the inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case that the product as claimed can be made by another and materially different process such as with the use of denaturing components that are added to these sympathomimetic amine compositions.
2. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1, 32, 33, 35-37, 39-42, and 44-54 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
3. Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS,

whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
